SUMAIYA AKTER RUNA

Junior Flutter Developer | Flutter + AI/ML (TensorFlow Lite, Gemini, Groq)

Chattogram, Bangladesh | 01612969677 | runaakter3301@gmail.com
LinkedIn | GitHub | Behance | Portfolio

PROFESSIONAL SUMMARY

Junior Flutter Developer and final-year CSE student at IIUC (2026) who builds mobile apps end to end: Flutter frontends, REST backends (Django, FastAPI) and AI features. Delivered 10 Flutter projects, 5 of them AI-powered, and built AquaGuard AI as the BDApps National Android Developer Bootcamp 2026 final project (Top 150 nationwide). Led an all-women Flutter team as She Squad Leader. Seeking a Junior Flutter Developer role to build reliable, user-focused products.

TECHNICAL SKILLS

Languages: Dart, Python
Frameworks: Flutter, Django REST Framework, FastAPI, Flask
State Management: BLoC, GetX, Riverpod, Provider
Backend & API: REST APIs, JSON Parsing, JWT Auth, Firebase
Database: PostgreSQL, MySQL, Firestore
AI & ML: TensorFlow, Keras, TensorFlow Lite, CNN, EfficientNetB0, MobileNet, LLM APIs (Groq, Gemini), NLP (BERT, BiLSTM)
Tools: Git, GitHub, Docker, Android Studio, VS Code, Figma

PROJECTS

AquaGuard AI – Bootcamp Final Project | Flutter, Provider, TFLite, Flask, Gemini

Landing Page | Post 1 | Post 2

- **AI Model:** Trained an EfficientNetB0 classifier for 7 fish classes (6 diseases + healthy) on MatsyaDx-BD and other public fish-disease datasets; 97.9% test accuracy (756 of 772 images), deployed on-device with TensorFlow Lite.
- **Screening Pipeline:** A fish/not-fish check (12,090 images) runs first. Results are from public datasets, not field trials.
- **Monitoring:** Pond dashboard for 9 water-quality readings with risk level, health score, feed estimates and growth charts.
- **Integration:** Gemini-powered Bangla assistant with offline rule-based fallback; BDApps subscription API.

StudyMate AI – Android App | Flutter, Dart, Django REST, PostgreSQL + pgvector, Celery, Redis, Groq, Gemini embeddings, Docker

GitHub | LinkedIn

- **Core Feature:** Students upload a PDF and get summaries, key points with page tags and Q&A.
- **Grounded AI (RAG):** PDF text is split into chunks and stored as Gemini embeddings in pgvector; only the closest chunks are sent to the Groq (Llama) model, which cites the page numbers.
- **Learning Tools:** Quizzes (5, 10 or 15 questions), retry of wrong answers and weak-topic tracking.
- **Backend:** Celery and Redis process PDFs in the background; JWT auth with tokens in Android secure storage; Dockerized Django API on Render.

ReplyPilot AI – Android App | Flutter, Riverpod, FastAPI, PostgreSQL, Docker, Groq

GitHub | LinkedIn

- **AI Replies:** Drafts replies in Bangla, Banglish and English from the seller's own products and stock; the seller reviews before sending.
- **Business Logic:** Orders with automatic stock updates, customer tracking, follow-up reminders and sales overview.
- **Security:** JWT and Argon2 auth, server-enforced monthly AI limits; prices and stock come from the database and mismatched numbers are flagged.

Postpartum Depression Support App – Top 25, BDApps Innovation Summit | Flutter, Firebase, BLoC

- **Frontend:** Built the Flutter frontend with BLoC state management and a calm, responsive UI for mothers dealing with postpartum depression.
- **Feature Design:** Planned the screens like a mental-wellness app: mood check-ins, journaling and guided relaxation, with soft colours and simple, accessible navigation.
- **Recognition:** Top 25 at BDApps Innovation Summit 2025; IEEE CUET 3MT Finalist (Top 40).

Calmi – UI/UX Design (Team Project) | Figma

Behance | LinkedIn

- Designed 90+ screens for a mental wellness app: onboarding, meditation, mood tracking, sleep tracking and AI chat.

Other Projects: Leaf Disease Detection and Cat & Dog Classifier (TFLite) | Readora (Flutter, PHP, MySQL) | IIUC Blood Bank App (GetX, Firebase)

EXPERIENCE

She Squad Leader, BDApps She Squad Program | 2026
- Led an all-women Flutter team building revenue-generating apps; coordinated tasks and architecture decisions.

Flutter Developer, BDApps National Android Developer Bootcamp (Top 150 nationwide) | 2026 – Present
- Built AquaGuard AI under senior engineer mentorship and integrated the BDApps subscription system.

Junior Flutter Developer, Brain Machine AI | Jan 2025 – Apr 2025
- Built and delivered Flutter app features on schedule in an agile team.

EDUCATION

B.Sc. in Computer Science & Engineering, International Islamic University Chittagong (IIUC) | Expected 2026

CERTIFICATIONS & ACHIEVEMENTS

- Research paper accepted at ICCIT 2025: CrossStack-BERT (BERT–BiLSTM–CNN) for Bangla medical specialist classification.
- Ostad: Flutter Developer with AI Course | BDApps App Publishing & Revenue Training | NASA Space Apps 2024, 2025.
- Top 150, National Android Developer Bootcamp 2026 | Top 25, BDApps Innovation Summit 2025 | IEEE CUET 3MT Top 40.
